	<hr/>
Cash balance in Treasury,	\$422.86

W. C. ROSS, *Treasurer.*

REPORT
OF THE
SUPERINTENDING SCHOOL COMMITTEE
OF THE
TOWN OF HEBRON,
FOR THE YEAR ENDING MARCH 1, 1881.

DISTRICT No. 1.

CELIA A. JEWELL, teacher. Length of term, five weeks. Wages per month, excluding board, \$16.00. Whole number of scholars, 8. Miss Jewell ranks among our good teachers. The appearance of the school at the commencement gave promise of a profitable term. The order was much better than last year. As the school closed sooner than was anticipated, a second visit was not made.

UNION DISTRICT No. 1.

The first term of seven weeks was taught by MARY D. SMITH. Wages per month, including board, \$15.00. Whole number of scholars, 8. Miss Smith is a good scholar, and here taught her first school with very gratifying success.

The second term of nine weeks was taught by SARAH R. ASH. Wages per month, including board, \$17.00. Whole number of scholars, 9. The school when visited had been in

progress several days, and its appearance was satisfactory. Good order was maintained, and the teacher seemed earnest in her efforts. As the term closed when I was absent from home, I cannot, from personal observation, speak of improvement made ; but have been assured it was good.

DISTRICT No. 2.

NETTIE A. HARDY, teacher. Length of term, nine weeks. Wages per month, including board, \$12.00. Whole number of scholars resident in the district, 5. Six attended who were nonresidents. The state of the travelling rendered it impracticable for me to be present at the close of the term. Judging, however, from Miss Hardy's prior experience in the school, I should confidently conclude that praiseworthy advancement was made.

DISTRICT No. 3.

GEORGE A. BLODGETT, teacher. Wages per month, including board, \$20.20. Whole number of scholars belonging in the district, 9. Five were in attendance belonging out of the district. The school opened with encouraging prospects ; but in consequence of sickness the attendance diminished, and on the closing day of the term I found the teacher minus the scholars. He expressed the opinion that 'most of the pupils, when present, had spent their time in a profitable manner.' The Prudential Committee, having visited the school twice, was of the opinion that the teacher had done his duty.

DISTRICT No. 5.

The first term of nine weeks was very efficiently taught by L. A. NELSON. Wages per month, including board, \$17.20. Whole number of scholars, 22. The second term of eleven weeks was taught by ANGIE B. F. WORTHEN. Wages per month, including board, \$27.00. Whole number of scholars, 29. Mrs. Worthen is an experienced teacher, and understands how to get a good share of work out of those under her instruction.

The results of a year's work in schools, the discipline of mind, the increase of knowledge, moral impressions made, all entering into the composition of character, and bearing on the entire future of the young, cannot be estimated by figures.

It should be the aim to secure for our children the best instruction possible. It is high time the idea entertained by some that a person of quite imperfect qualification will do to teach a small and backward school, should be abandoned. If any school needs good and correct teaching, a backward one does. Where the appropriation of money is small, and the term necessarily short, there is a temptation to protract it by employing an imperfectly qualified teacher whose services can be procured at a cheaper rate. This is really poor economy. A short term under an efficient teacher will be worth more than a longer one under an incompetent teacher.

J. B. COOK, *S. S. Committee.*
